

NEWBORN PORTRAITS

CAPTURED MOMENTS
BY CHRISTINE

Thank you for choosing Captured Moments by Christine!

We know you have options when it comes to your photography services so we appreciate your business. Here are some instructions and helpful tips for your session.

NEWBORN SESSION:

- ▶ Newborn sessions should be done within 5 - 7 days of age to ensure a sleepy baby during your session. Newborns should be done no later than 14 days old.
- ▶ Captured Moments by Christine does not guarantee the cooperation of your newborn. If your newborn is uncooperative another session will need to be scheduled with an additional session fee.
- ▶ Premature babies are an exception. They should be scheduled no later than 3 - 4 weeks old depending on how premature they are. Consult your photographer further if needed.
- ▶ Please allow up to 2 1/2 hours of time for yourself. We are on baby time and these sessions are always unpredictable. If we have another session after you and baby is not cooperating, we may have to schedule another session day.
- ▶ Please keep your baby up 1 - 2 hours prior to your session so your baby is ready to eat and stay asleep for his or her session.
- ▶ Arrive 20 minutes early from your session start time and feed baby a FULL serving. This will keep baby nice, full and sleepy for the duration of your session time.
- ▶ Bring baby in a button down type sleeper or have him or her wrapped in a swaddle blanket for comfort for his or her full serving.
- ▶ Captured Moments provides all baby wraps, props, hats, ties, princess crowns, king crowns, crochet outfits, beanie hats and blankets for the session.
- ▶ If specific colors would like to be considered for your baby's newborn session, please give us a 24 hour notice on what those colors are.
- ▶ Bring a pacifier, wipes, burp rag and blanket to swaddle baby in.
- ▶ If you want to bring sentimental items, please inform CM at least 24 hours of your session time to ensure we have set up prepared to accommodate.

CAN WE TAKE A PHOTO WITH OUR NEWBORN?

- ▶ This question is often asked. Yes, most definitely! However, unless other arrangements are discussed prior, we do our newborn sessions first once baby is nice and full.

WHAT TO EXPECT DURING & AFTER YOUR SESSION:

- ▶ After your session, please allow at least 2 weeks (excluding holidays) to receive a link to your private album will all images to view and choose from.
- ▶ Please read the email format that is sent to you. It will give you instructions on what you need to do and how to order.
